SWAT the FLY

There is little advantage, however, in swatting the fly unless at the same time you join in the spring clean-up movement and remove rubbish and filth from your premises.

FLIES BREED IN FILTH

Therefore in "Swatting the Fly" remove the filth at the same time. Tomorrow is Newark's annual clean-up day. Place your rubbish, free from garbage, in the street near the curb.

CITY MAY MAKE ITS OWN GAS

Councilman Knauber Supports Resolution to Investigate

USE OLD WATER MAINS

As Part of Gas Distribution System is Mr. Knauber's Suggestion—Says City Can Make Gas Cheaply.

Manufactured gas for Newark consumers is to be considered by the city council according to a resolution introduced by Councilman Frank Knauber, which was adopted at the Monday night meeting of council.

The resolution instructs Service Director W. C. Christian to investigate the matter and report to council on the advisability of establishing and maintaining a municipal plant for the manufacture of producer or washed gas.

In supporting the resolution, Councilman Knauber proposes to use that portion of the old waterworks distribution system which parallels the new system put in by the city a few years ago.

Mr. Knauber declared that more than 25 miles of the old water mains is paralleled by the new mains, and that the use of this pipe as a part of the gas distribution system would save not less than \$6,000 per mile.

He declared that there were 2600 house connections from the old system which could still be used at a saving of \$6 on each connection.

He told council that his resolution was not a freak measure, nor was it a joke. He stated that it was not the purpose of the measure to antagonize the gas company, that it would have been introduced regardless of the outcome of the litigation between the city and the gas company. He said that there was no reason why the city should not sell gas as well as water, to consumers at a profit.

He called attention to the fact that the city had several sites available which would be ideal. He spoke of the old gas plant site, containing three acres, located opposite the B. & O. station. He said that either of the two waterworks sites not in use now, north of the city, would be ideal. He urged the city officials to take no action regarding the sale of the old municipal pump station site until the gas matter was fully investigated.

In speaking of the later site he called attention to the fact that the foundation constructed several years ago was in perfect condition, that the grading for the spur track was still fit for use, that there was enough low ground surrounding the plant to care for the refuse from the gas plant for fifteen years and that the by-product of the gas plant (Continued on Page 12, Col. 3.)

Charge O'Shaughnessy's Baggage Stolen While On Way to Vera Cruz

(Associated Press Telegram) New Orleans, May 5.—Mexicans did not even except Nelson O'Shaughnessy, former American charge at Mexico City, in preying upon American property after the fall of Vera Cruz. Practically all of the baggage of Mr. and Mrs. O'Shaughnessy was stolen from the special train Huerta provided for the charge and his party to transport

them to Vera Cruz after he had been handed his passports.

The former charge arrived today on the gunboat Yankton and early in the day he and Mrs. O'Shaughnessy began a shopping tour to replenish their wardrobes. The party will leave tonight for Washington. Mr. O'Shaughnessy refused to discuss the Mexican situation in any of its phases.

DR. J. N. WRIGHT

SUCCUMBS TO BRIGHT'S DISEASE, PASSING AWAY TUESDAY MORNING.

Had Attended to His Duties as Liquor License Commissioner Until a Month Ago.

Dr. J. N. Wright, member of the county liquor license commission and practicing physician, died Tuesday morning at 9:10 o'clock at his home in Granville street, following an illness of several weeks from Bright's disease. His death was not unexpected, as his condition has been extremely critical for more than a week. He was unconscious

DR. J. N. WRIGHT.

all day Monday and the end came peacefully. The patient passed from the deep slumber in which he had remained for nearly twenty-four hours, into eternal rest.

Dr. Wright has been in poor health for several months though he was able to keep up his duties in connection with his office as liquor license commissioner until a month ago. At that time his condition became such that he was confined to his home. Since that time no hope was entertained for his recovery though everything known to medical science was done to relieve him and prolong his life.

Funeral services will be held Thursday morning at 10:30 o'clock at the Methodist Episcopal church in Johnstown. Rev. L. C. Sparks, pastor of the First Methodist church of this city, officiating. No services will be held here. Friends of Dr. Wright

may call at the home from 3 to 5 o'clock Wednesday afternoon. The body will be taken to Johnstown early Thursday morning.

FOURTH DECLINE IN OIL PRICES

(Associated Press Telegram) Findlay, O., May 5.—The Ohio Oil company this morning made a still further reduction of five cents per barrel in the price of North and South Lima, Indiana, Illinois and Princeton oils. The price of Wooster was not changed. This is the fourth reduction made recently in price of these oils, and further reductions are looked for. The new prices are North Lima 1.24; South Lima and Indiana 1.19, Illinois and Princeton 1.20.

SAYS HUERTA HAS AGREED TO RETIRE

(Associated Press Telegram) Vera Cruz, Mex., May 5.—Refugees arriving here today from Mexico City bring conflicting reports concerning the purposes of Provisional President Huerta. Some say that, realizing the hopelessness of the situation he has agreed to retire from the presidency, fixing Thursday of this week as the date of his withdrawal.

Another report from the capital declares that Huerta, instead of yielding, has determined to play out the game. He is fully aware that mediation will mean time, even if it does not lead to an amicable adjustment of the difficulty.

HAD ABANDONED BURNING BOAT WHILE AT SEA

(Associated Press Telegram) Boston, May 5.—Further details regarding the burning steamer sighted three hundred miles south of Cape Race yesterday by the steamer Seydlitz, Bremen for New York were anxiously awaited in shipping circles today. The meagre wireless despatches sent last night by the Seydlitz were by the Sable Island radio station indicated that it had been impossible to learn the name of the vessel, but that another steamer apparently had heard her call for help Sunday night. As the Seydlitz could see no sign of life on board, it was supposed the crew had been taken off by some other vessel.

The difficulty of obtaining news by wireless concerning the burning ship was increased by the fact that the radio station at Cape Race, which was disabled in an early spring blizzard, at present has a very limited range.

SON KILLS HIS FATHER WITH RIFLE

Retired Millionaire Starch Manufacturer Was The Victim

BOY ACTED STRANGELY

For the Past Several Days Servants Tell Police—Murdered Man Served Throughout Civil War and Organized Duryea Zouaves.

(Associated Press Telegram) New York, May 5.—Hiram Duryea 81, retired millionaire starch manufacturer and civil war veteran was murdered early at his home in Brooklyn by his son, Chester Duryea. Seven shots were fired by the son into his father's body, causing instant death.

The murder occurred on the porch at the rear of the Duryea home where both father and son were in the habit of sleeping. About 1 o'clock this morning Chester Duryea slipped from his cot into the house where he kept a number of rifles, revolvers and shotguns for hunting purposes. He selected an automatic pistol and a magazine rifle both of which he loaded and returned to the open air porch. Standing within a few feet of his sleeping father he first fired from the rifle and then emptied the revolver.

Chester Duryea would give no reason for killing his father when taken in custody. For the past few days, servants told the police, he had been acting strangely and they had feared a return of a previous breakdown. At the outbreak of the civil war, Hiram Duryea organized the Duryea Zouaves and became its colonel. He served throughout the war, retiring at its close with the rank of Brig. General.

General Duryea's father was founder of the National Starch Company and the general succeeded to the presidency of the company. The general retired from active business life some time ago.

Chester Duryea was admitted to practice law and had intended to take up the legal business of the starch company of which his father was the head. Domestic troubles that culminated in his being divorced by his wife in 1903 discouraged him in this ambition, friends explained. The divorce action begun in 1901 is also said to have been the beginning of trouble between Chester and General Duryea, the father taking the side of his daughter-in-law against his son. Mrs. Chester Duryea, before her marriage was Miss Nina L. Smith, daughter of Franklin Walden Smith of Boston.

For some time Chester Duryea has spent much time at home and after it was found that he had been engaged in writing a pile of manuscripts, the result of his work being taken by the police for examination for a possible reason for his act. Although servants said that there had been no quarrel between General Duryea and his son before they retired for the night, an overturned table, a broken screen and books scattered about the floor of the (Continued on Page 3, Col. 2.)

WOMAN PUT OFF OF TRAIN GETS DAMAGES

(Associated Press Telegram) Columbus, May 5.—The Youngstown and Ohio River Railroad Company must pay Clara M. Mort, \$275 because a conductor of a train on which she was riding let her off at a stop two miles from the point designated by her ticket and to which she wanted to go. The defendant alleges that she had to walk two miles through snow at night and suffered a nervous shock. The verdict was awarded in the lower courts and affirmed by the Supreme Court today.

Pres. Wilson Names Men Who Will Constitute the Federal Reserve Board

(Associated Press Telegram) Washington, May 5.—After four months of waiting while President Wilson carefully sifted hundreds of names, the business and financial world today learned definitely that the following men had been chosen for the federal reserve board which will put into operation the nation's new currency system:

Richard Olney of Boston, Mass., former secretary of state and attorney general of the United States under President Cleveland.

Paul M. Warburg of New York, member of Kuhn, Loeb & Company, and lifelong student of foreign banking systems.

W. P. G. Harding, president of First National Bank of Birmingham, Ala., and one of the leading bankers of the south.

Harry A. Wheeler, vice president and secretary of the Union Trust company of Chicago and until recently president of the United States Chamber of commerce.

Dr. Adolph Casper Miller, professor of finance at the University of California and now assistant to Secretary Lane of the interior department; a political economist and writer on economics and finance.

These men, together with the secretary of the treasury, William G. McAdoo, and the comptroller of the currency, John Skelton Williams, who are ex-officio members, have been selected to compose the federal reserve board.

White House officials declined to say when the nominations would be sent to the Senate as they were waiting today further word from Mr. Olney as to his acceptance. It was feared by persons close to the White House that he would not accept on account of his advanced years. Mr.

Olney had been chosen for governor of the board and it is not known as yet who would substitute him.

Under the new currency law, the President is "to have due regard for a fair representation of the different commercial, industrial and geographical divisions of the country." Not more than one of the five members of the federal reserve board can be selected under the law from the same reserve district.

The board is authorized to examine the affairs of each federal reserve bank and each member bank and to require necessary reports. The board must publish weekly statements of the condition of federal reserve banks. It may require the elimination of doubtful or worthless assets from books of federal reserve banks and it may suspend for statutory violations operations of any federal reserve bank. A feature of the new currency system is the creation of a federal advisory council, members of which are appointed by directors of each federal reserve bank. The council is to act in an advisory capacity to the federal reserve board. Reserve banks are empowered to discount notes, drafts, and bills of exchange arising out of actual commercial transactions upon the endorsement of any of its member banks, with a waiver of demand, notice and protest. The board is empowered to determine the character of such "paper" eligible for discount.

OLNEY DECLINES.

(Associated Press Telegram) Boston, May 5.—Richard Olney has addressed a letter to President Wilson formally declining the appointment as governor of the federal reserve board of the new banking system.

CARS COLLIDE; THREE KILLED, 36 INJURED

(Associated Press Telegram) Detroit, Mich., May 5.—Three persons were killed and thirty-six others seriously injured when two crowded street cars met head-on here today. Both motormen met death. Practically all of the victims were foreigners who were employed in a local automobile factory.

WILSON CONFERS WITH BRYAN AND ADMIRAL DEWEY

(Associated Press Telegram) Washington, May 5.—Admiral Dewey, president of the general board of the navy and Secretary of State Bryan began a conference with President Wilson shortly after the cabinet adjourned today. It still was in progress when the president's lunch hour arrived. Nothing had been learned at that time as to its purpose, but the Mexican situation was believed to have been under consideration.

Coal Tipple Burns Causing Loss of \$5000

Charleston, W. Va., May 5.—The tittle at the Hugheston Mine of the Hugheston Coal and Coke Company was burned early today with a loss of \$5,000. The miners there are on a strike.

SOLUTION OF PENDING CONFLICT

May Depend on Adjustment of the Internal Strife in Mexico

MESSAGE OF MEDIATORS

Indicates They Consider Whole Range of Mexican Difficulties as Having Bearing on Issue Between United States and Huerta.

(Associated Press Telegram) Washington, May 5.—The text of the Mexican mediators' telegram to General Carranza eliminating him from the mediation proceedings which became known today, disclosed for the first time that the mediators held that "all difficulties which contributed toward the present situation in Mexico bear either directly or indirectly on the solution of the pending conflict between Mexico and the United States."

The mediators declare in their answer that all these differences "should be made the subject of consideration in the negotiations" for whose successful conduct "we have deemed it indispensable to suspend hostilities," should Carranza not deem it so, the mediators state they would be compelled to "withdraw as inopportune, the appointment of a constitutionalist representative."

This message from the mediators gives the first authoritative expression from them that they considered the whole range of Mexican difficulties, including the Huerta-Carranza issue, as having a bearing on the issue between the United States and Huerta.

For the first time since the occupation of Vera Cruz, the regular session of the cabinet today lasted less than an hour. After the conference cabinet members said there was practically no discussion of the Mexican situation and the time was devoted to departmental routine.

Firing continues daily at Tampico between constitutionalists and federal forces according to a report transmitted from Admiral Mayo by Admiral Badger today. Heavy guns were heard yesterday morning. The steamer Camaguey, which has arrived at Vera Cruz from Tampico, reports that Mexican federal forces at the latter port were reinforced by 1,500 men last week.

Alarmed by unofficial reports that acting American Consul John R. Silliman at San Luis Potosi, Mexico, has been a prisoner of General Mas, Mexican federal commander for two weeks, the state department today sent urgent telegrams of inquiry concerning him addressed to the Brazilian minister in Mexico City. Consul Miller at Tampico and Consul Hanna at Monterey. Silliman's regular post was Saitillo, but he was transferred to (Continued on Page 3, Col. 2.)

COLUMBUS VOTES ON THE ADOPTION OF NEW CHARTER

(Associated Press Telegram) Columbus, May 5.—Because of a heavy rain only a light vote was being polled in this city today in the special election to determine whether the electors of Columbus will adopt the new charter which proposes to substitute a modified form of the commission plan government. If adopted the new charter would contain features of the short ballot; the recall; a common council composed of seven members, instead of 19 members as heretofore; terms of office for city officials of four years instead of two; all officers to be selected from non-partisan ballots; preferential voting for councilmen. The mayor would remain elective as would the auditor, but the treasurer would be appointed by the mayor.

Governor Cox Issues A Proclamation Naming Sunday As Mothers' Day

(Associated Press Telegram) Columbus, May 5.—Next Sunday, May 10, will be Mothers' Day in Ohio. Governor Cox issued a proclamation today setting that day aside for special honoring of mothers, recommending that special exercises be held in all churches and that every person wear a flower in memory of his mother.

"We have reached that point in our civilization where motherhood is enshrined in the hearts of the human race as is no other sentiment," he says in his proclamation. "We have arrived at a destiny which reveals to us the divinity of mother. We have come to appreciate, so far as the finite mind can appreciate, the blessed sacrifices, which she makes for all of

us—the struggle which she endures, the patience which is hers, the saintliness which she possesses.

"It is, therefore, well that we set aside one day in the year to be known by her name; that we gather at a shrine and worship her memory; that we adorn ourselves with a flower in her honor; and that we consecrate ourselves to her service.

"Therefore, I, James M. Cox, governor of the state of Ohio, do, hereby, designate Sunday, May 10, 1914, as mothers' day, and recommended that fitting exercises be held in all of the churches, or other places of worship, and that we meditate that day upon the many blessings which have come to us through the unselfishness and devotion of her who gave us life."

HANDSOME \$25 DOME AT AVERY-LOEB CO.. FINE CONTEST PRIZE

This prize is surely a beauty—the \$25.00 dome or shower purchased from the Avery-Loeb Co., at 53 North Third street for the Advocate's big Booklovers' Contest. Nothing in the world beautifies the home like handsome light fixtures and this shower dome is unusually effective. It is of the latest design of semi-indirect, of Flemish Brush brass with the dome and shower of cream sun glass. It gives the most beautiful soft light and looks well with almost any color effect you may have in your rooms. Any home would be proud to possess this fine dome.

The Avery-Loeb Electric company is a branch of one of the largest jobbing houses in the state and Newark will likely be made the headquarters and shipping point for all

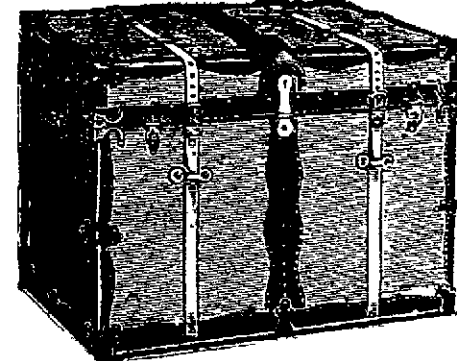

the branch stores. Mr. E. A. Simms is the manager of the Newark store. While electrical contracting is the big work of this firm, every new electrical device is carried in the store and its line of domes, showers and lamps of all kinds is very complete.

See the big demonstration of all electric cooking utensils now being held at this store. Drop in the Avery-Loeb store and Mr. Simms will be glad to show you this splendid gift in the Booklovers' Contest. Just think what solving the correct answers to these pictures in this Booklovers' game may bring to you, and you have plenty of time to enter the contest yet. Get the coupons and catalogue. WORDS OF PRAISE FOR ELKS' CIRCUS

The Zanesville Times-Recorder has the following to say of the Spellman circus which exhibited there yesterday and today and which comes to Newark Wednesday and Thursday, under the auspices of the local lodge of Elks:

"Zanesville circus lovers didn't mind a little storm on circus day, and the big tents of the Elks' show were crowded last night, despite the rain. The performance was of the highest class and every patron seemed

ed well satisfied. In fact, the performance was just about 100 per cent better than any one had expected. By many it was said to be the equal, or even better, than any circus that has visited this city in years.

"The first visit of the organization, the late arrival of the show Monday, the failure of the street parade, and the rain all had a lessening effect on circus enthusiasm, but so many words of praise were spoken for the show last night that it is not likely the tents will be able to hold the crowds today.

"The day will start off with a big street parade at 10 o'clock, with the human flag made up of local Elks leading the procession. Then will follow the regular free pageant of the organization. Both performances today will begin on scheduled time."

MAKES BACKACHE QUICKLY DISAPPEAR

A Few Doses Relieves All Such Miseries. Bladder Weakness, Kidney Trouble and Rheumatism Promptly Vanish.

It is no longer necessary for any one to suffer with backache, kidney trouble, have disagreeable bladder and urinary disorders to contend with, or be tortured with rheumatism, stiff joints, and its heart-wrenching pains. For the new discovery, Croxone, quickly and surely relieves all such troubles.

Croxone is the most wonderful remedy yet devised for ridding the system of uric acid and driving out all the poisonous impurities which cause such troubles. It is entirely different from all other remedies. It is not like anything else ever used for the purpose. It acts on the principle of cleaning out the poisons and removing the cause.

It soaks right in through the walls, membranes and linings, like water in a sponge, neutralizes, dissolves, and makes the kidneys sift out and filter away, all the uric acid and poisons from the blood, and leaves the kidneys and urinary organs clean, strong, healthy and well.

It matters not how long you have suffered, how old you are, or what you have used, the very principle of Croxone is such, that it is practically impossible to take it into the human system without results. There is nothing else on earth like it. It starts to work the minute you take it and relieves you the first time you use it.

If you suffer with pains in your back and sides, or have any signs of kidney, bladder troubles, or rheumatism, such as a puffing swellings under the eyes or in the feet and ankles, if you are nervous, tired, and rundown, or bothered with urinary disorders, Croxone will quickly relieve you of your misery. You can secure an original package of Croxone at trifling cost from any first-class druggist. All druggists are authorized to personally return the purchase price if it fails in a single case.

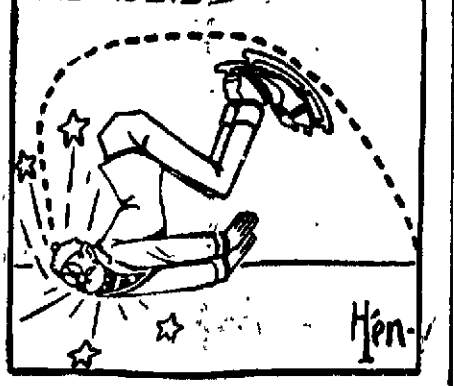

The time that will be required for ships to go through the Panama Canal will be from ten to twelve hours.

The Grand Old Quaker Remedies

Many people are asking the Quaker Health Teacher what the famous Quaker Remedies will do for chronic diseases of the stomach, liver and kidneys. Today he answers the questions asked oftenest:

Will Quaker Extract cleanse the blood?—Yes, nothing better in the world; it is made of only pure herbs, and not opiate.

Will Quaker Extract cure Rheumatism?—Yes, with the assistance of Quaker Oil of Balm, which gives the quick relief to the pains and swelling.

Will Quaker Extract cure catarrh?—Yes, positively; it kills the germs, washes the mucous out gently, and heals the irritated membrane. To stop that hawking you have to get rid of the cause.

Will Quaker Extract cure indigestion?—Yes, indeed, it is usually caused by gases formed from fermented foods in the large intestines. Quaker Extract heals the irritation and strengthens the digestive apparatus, effecting a real cure.

Will Quaker Extract cure constipation and biliousness?—Yes, in the same way it cures indigestion, also by putting the liver and colon in good working order, not forcing with rank purgatives, as most of you do now.

Will Quaker Extract cure kidney or bladder troubles?—Yes, by healing the inflamed condition, and strengthening those organs, so they will expel uric acid.

Will Quaker Extract cure malaria or chills?—It will, by creating a pure blood stream, and making better circulation, expelling all germs of malaria, catarrh, etc.

Will Quaker Extract expel worms?—Positively yes. It contains one of the most infallible vermifuges, but NOT an opiate—only a herb. Even the tapeworm is removed without any distressing "Quaker."

Will Quaker Extract help build up weak and run-down men and women?—It will. It clears all toxins or poisons from the blood, and gradually it strengthens the entire system, so you feel like yourself again.

Palpitation of the heart, dizziness, short breath, heaviness across the hips, etc., are only symptoms, not diseases themselves. Get rid of the cause, and you will feel new life and health again. Don't be discouraged just because you have spent money in the past without getting results. There IS a cure for you, and the Health Teacher is here to prove it, too, without any charge. Everyone needs a tonic or blood remedy, so why not take one that is Nature's own product of pure herbs, roots, barks, berries and blossoms? It was handed down from our forefathers, the Quakers. That is the medicine Quaker Gaskins has to offer you. He is at the City Drug Store, Third and Main streets, Newark, O., daily from 9 a. m. to 9 p. m., and does not charge to tell you about "Quaker."

Quaker Extract is 6 for \$5; 3 for \$2.50; Oil of Balm, 50c.

He is here with the proof to prove what he says.

USE PATIENCE WITH "BAD" BOY, SAYS OFFICER

Van Niman of Boys' Industrial School Sees Genuine Study in Juvenile Court.

A boyish prank or two nearly caused Danny Good and James Dunlap to be committed to the Lancaster Boys' Industrial school, from which they are both at liberty under probation. The lads confessed having appropriated a hair switch which waved temptingly at them from a South End clothes line. It was also charged that they adopted some cigars from a downtown drug store counter.

Paul and Harry Vicker, associates of the other two boys, were brought before Juvenile Judge Hunter for investigation at the same time. The boys all were released under suspension of sentence which, if executed, would mean that young Good and Dunlap would go back to Lancaster.

The lads presented a study in the youthful correction problem, and the study was none the less appreciated by C. V. Van Niman, parole officer of the industrial school, who was here Tuesday. Perhaps nowhere in Ohio is there a man more familiar with youthful offenders and their character than Mr. Van Niman, yet, without him possessing a nature so full of sympathy and understanding of the deeper side of the errand child problem, that he is looked upon with the deepest affection by inmates of the Lancaster institution.

"It is so often in just such cases as these that we see the results of poor environment and the sins of the parent visited upon the child," said he, Tuesday. "There surely could be no greater lesson or no greater argument in behalf of careful training of children, than these examples we see in juvenile courts."

"And I sometimes think we are inclined to be hasty in rushing boys off to institutions of correction, merely to clear them out of our communities. I think it the province of courts and officers to daily along with these boys and girls, give them new starts and plenty of chance before committing them finally to institutions where, alas, too often, they lose hope, ambition and respect for the world at large. I do not mean by this that their training is neglected in our institutions."

These institutions are for the purpose of making them good and useful citizens, but too often an erring child will look upon his commitment to a corrective home as a punishment with which disgrace goes hand-in-hand, and as a result he is apt to become disheartened in many instances.

"You have an excellent judge in your Licking county juvenile court, and you have able probation officers. I am satisfied that justice never will be slighted here with this court and such efficient officers in authority."

SON KILLS

(Continued from Page 1.)

sleeping porch led the police to believe that Chester had awakened his father and that a struggle had ensued before the shots were fired. In a cell in the Brooklyn police station, Chester Duryea, who early this morning fired seven bullets into the body of his father, Hiram Duryea, millionaire starch manufacturer and veteran of the civil war killing him instantly, talked incoherently of the events leading up to the shooting and gave evidences of being stark mad. While talking he dug his finger nails into the palms of his hands until they bled. He said he shot his father when he received a "spiritual" message from George Washington.

In a saner, calmer tone he added: "I was the best friend my father had and he was my best friend. I loved him dearly. If he were here now I could explain the whole matter. I don't really know why I shot him."

"I had made up my mind before shooting father that as soon as he was dead I would turn the automatic pistol upon myself and end my own life. I fully intended doing that while I was firing at my father. After it was over, though, an impulse came over me and I decided not to kill myself. I wish I had carried out my original intention."

Before his arraignment in court Duryea became violent and beat on the doors of his cell with his bare knuckles. A policeman was stationed outside the door to prevent him from injuring himself seriously.

SOLUTION

(Continued from Page 1.)

San Luis Potosi in the present emergency. Information came from Vera Cruz to the war department today that the Mexican federal troops have mined the railroad tracks from Vera Cruz to Mexico city in preparation for the utter destruction of the road. In the event that the American forces attempt a march on the capital. No confirmation had been received of reports that the San Francisco bridge on the interoceanic railroad had been damaged.

The mines are reported to be located a half mile apart and Mexican soldiers have been detailed to touch off the fuses should hostilities ensue. These preparations and the throwing up of defenses which are daily making the position of the Mexican federal troops stronger, are continuing to be a source of worry to General Funston and it is understood he would welcome orders to start for the Mexican capital at once.

Admiral Mayr at Vera Cruz has informed the navy department that he would have no trouble in taking Tampico with his present forces and it was learned today that he has more

than once hinted in his dispatches that it would be advisable to take such action. He has now under his command in addition to his flagship, the Des Moines, two cruisers and a torpedo boat fleet of nine.

Admiral Badger reported to the navy department today the receipt of word from the torpedo boat destroyer Drayton at Tuxpam that Territorial Minister Hancienda there had ordered custom officers not to clear or enter vessels from or to American ports. This order, it was further reported, had been given to all ports in the state of Vera Cruz.

The Drayton also reported that 13 Americans had been detained against their will at Metlatyaca, in the state of Puebla, about sixty miles from Tuxpam. This information was given to the British consul at Tuxpam by American authorities who said the Mexican authorities gave their reason for holding the Americans a desire to assure their safety. The British consul has wired the governor of Puebla requesting their release.

GEN. CARRANZA IS ELIMINATED FROM THE PROCEEDINGS

(ASSOCIATED PRESS TELEGRAM.) Washington, May 5.—With the virtual elimination of the constitutionalists from proceedings aimed at a general settlement of Mexico's ills, the South American envoys today began plans to compose differences between Huerta and the United States government that led to the seizure of Vera Cruz. Carranza's elimination, at least for the present, was determined upon by the three mediators. They informed him that because of his refusal to agree to a truce with Huerta they cancelled their proposal that he name a representative to co-operate in mediation negotiations. Relations with the rebel chief were not arbitrarily broken off. The mediators left open to him the opportunity to enter the proceedings whenever he was ready to fix an armistice.

While the abrupt turn in the diplomatic drama led many observers to believe that all present chance of general mediation was lost, yet suggestions were heard that Carranza might change his mind after his troops were in possession of Saltillo, the next rebel goal. Local constitutionalists representatives declined to comment on such rumors. Others pointed out that Carranza never would parley with the federals while Huerta remained at their head.

The developments which led the mediators temporarily to drop Carranza from their mediation plans had not been entirely unexpected, and the envoys went ahead with their original program. With the announcement by the state department of delegates appointed to act in an advisory capacity with the envoys it was believed they would be ready to outline their scheme for mediation of the Tampico deadlock and other alleged offenses against the dignity of the American government in federal territory. Huerta had named his delegates—three distinguished Mexican diplomats—and it was expected the American delegation soon would be chosen. Where the sessions of the mediators would take place had not been determined. Mexico City dispatches indicated Montreal might be the scene of the exchanges. In official circles here today, however, that was declared unlikely. It was believed some quiet New England resort would be chosen. The delegates will have no executive part in the preliminary negotiations. They will transmit proposals of the mediators to their governments, and reply with intimations of the lengths to which both parties would go toward adjustment of differences that led President Wilson to adopt measures "short of war" for the Tampico affront. The envoys of Argentina, Brazil and Chile made known before they resumed their session today that they intended to remain in complete charge of the negotiations. That was forecast in their note to Carranza. The rebel chief was said to have replied to the envoys today outlining his position. Previously he had asserted an attempt to adjust Mexico's internal affairs was beyond the limit of diplomatic activity, and charged that Huerta deliberately had brought about events that led to the occupation of Vera Cruz. Huerta's position was declared to be increasingly precarious. Zapata, the southern rebel, according to reports in Vera Cruz, threatened to attack the federal capital today. Velasco, one of Huerta's chiefs in operations around Torreon was said to have declared he never would direct another battle against the constitutionalists. He was dissatisfied with the support Huerta accorded him in battles against the Carranza invasion. Plots in the army against Huerta were growing it was asserted. In many quarters a sudden change in the situation in Mexico City would not be unexpected. How for such development would affect the mediators program for general settlement was a topic of discussion by observers of the Mexican situation.

The influx of Americans into Mexico City from outlying districts continued today, and arrangements for their transportation to east coast ports were hurried. Appeals of isolated groups of Americans for military escorts were received by Sir Lionel Carden the British minister in Mexico, who was co-operating with the Brazilian minister for their relief. The United States consuls at Progresso, Puerto Mexico, Frontera and Carmen were ordered to turn over their interests to French consular officials. That was one of the features of the program of preparations for eventualities. Reports that the constitutionalists had notified Rear Admiral Mayo that they were attempting to enter the Danco river at Tampico, burning the oil well, let loose upon the town, excited no comment here. It was believed the American naval officer would not be compelled to make any aggressive move and would await the gradual reduction of the federal garrison by an embargo on food supplies.

Consul Carden at Vera Cruz notified the state department today the foreign consuls had arranged to send messages to Mexico City once a week.

Reports of a speech made by Gen.

eral Villa at a recent banquet in Chihuahua, stated that the rebel military leaders reiterated declaration of allegiance to Carranza. He asserted he would ask no favors for himself at "the triumph of the revolution."

TWO MORE DIE.

(ASSOCIATED PRESS TELEGRAM.)

Washington, May 5.—Two of the sailors wounded at the occupation of Vera Cruz died today. They were Harry Pulliam, fireman, and Clarence R. Hirschberger, seaman, both of the battleship Uta.

The information of the deaths at Vera Cruz was received in a dispatch from Admiral Badger. Pulliam died as a result of a gunshot wound which had penetrated his chest. Hirschberger died after his right leg had been amputated at the thigh. This operation was necessary because of complications which had set in. The balance of those wounded were reported doing well.

Hirschberger's home was in Waverly, N. Y. He was 22 years of age and enlisted January 21, 1911.

Pulliam lived in Pulaski, Va. He was 32 years old and enlisted February 2, 1911.

IMPETUS GIVEN TO BROTHERHOOD FEDERATION PLAN

Chatham Club First to Unite With County Organization—Enthusiastic Meeting Held in Newark Church.

In an enthusiastic meeting held by sixty-two members of the Chatham Men's club, in the Chatham M. E. church, Monday night, the organization went on record as the first to unite with the Federated Men's Church club movement, started by the brotherhood organizations of Newark churches.

J. W. Dunlap and Rev. Frank Gilliam, the latter the pastor of the Chatham M. E. church, were elected delegates to the county federation of church brotherhoods.

Ed. M. Larson, who is a leader in the county federation movement, addressed the meeting, speaking on the general subject of the advantages

to be gained by unity and harmonious action.

The Chatham brotherhood has been organized only a year but is flourishing. Its motto is: "Help Someone," and it possesses an attractive banner bearing the insignia of the purpose of the movement.

At the next regular monthly meeting, to be held June 1, Rev. Mr. White, of Zanesville, will be the principal speaker.

Enthusiasm over the projected county federation was kindled in a meeting held in the First Presbyterian church Monday night when Dr. C. L. Williams, of Granville, in his characteristic eloquence, addressed a large assembly of brotherhood representatives from the various churches. Eighty-five guests were seated at the banquet table and enjoyed an excellent menu served by ladies of the church. Carl Norpell, president of the federated brotherhoods, presided over the meeting, and a number of good talks were heard.

A committee was appointed to confer with all the church brotherhoods in the county to elicit support in forming the county federation.

Licking's Candidate.

The candidacy of Hon. Edward Kibler for judge of the Court of Appeals is receiving favorable consideration by the leading attorneys of the fifteen counties comprising the Fifth Circuit Judicial district. Mr. Kibler is eminently qualified for a circuit judgeship. He has been an active practitioner at the Newark bar for thirty-two years. He was one of two members appointed to compile the Ohio Municipal Code and has been highly complimented for his work as a member of the commission. He has filled various offices of public trust and a few years ago was honored by the Presidency of the Ohio Bar Association. Mr. Kibler would be an ideal jurist, one in whom the people would have faith and confidence. The voters of the district will make no mistake in endorsing Mr. Kibler's candidacy. Indeed the district would be honored by having a man of his recognized ability serving on the bench. In the prime of life, energetic, progressive, learned in law and literature, a man of a clean character and strict integrity, Licking county is proud of his citizenship and presents him as one of her foremost sons as a candidate for the circuit court bench.

May 5 In American History.

1814—British force, 1,750 strong, attacked Fort Oswego and was repulsed by the American garrison under Colonel Mitchell.
1864—A day of battles. The Army of the Potomac opened the attack on General R. E. Lee's forces in the Wilderness. The army under General W. T. Sherman fought General J. B. Johnston at Rocky Ridge, Ga.; General P. H. Sheridan's troops encountered General J. E. B. Stuart's Confederates at Craig's Church, Va.; the Confederate ironclad ram Albemarle was repulsed by Federal wooden ships in Roanoke river, and Admiral D. D. Porter's Red river squadron fought Confederates on shore at Dunn's bayou, Louisiana.
1904—The Panama canal zone formally ceded to the United States.

IN THE SPRING YOU

NEED MEDICINE

Your close confinement indoors and heavy living during the winter, and the torpid condition of your system brought about by cold weather, have made your blood impure and weak, so that now eruptions appear on your face and body, you lack vitality, strength and animation, your appetite is poor, you have that tired feeling. Ask your druggist for Hood's Sarsaparilla. It makes the rich red blood that you must have to feel well, look well, eat and sleep well. Get it today.

"Clean-up" Tomorrow.

This city was one of the very pioneers in the establishment of a municipal "Clean-up day," which in many cities of the United States has become an annual institution. In Newark heretofore it has proven a great success, and has accomplished the purpose intended by its foundation. As in every other activity, municipal corporate or individual, the object sought to be attained should be the test of its desirability and worthiness. The objects of "Clean-up day" are manifold. They should make their appeal to every one having a "high ideal of right living and a proper interpretation of his high privilege of citizenship."

The interests of public health are conserved, the standard of civic beauty will be exalted and from every standpoint, the hearty co-operation of every citizen should be forthcoming in the plan to be put into execution tomorrow, May 6th. The effort required is certainly negligible when the results are to be compared. All that is asked each one is to prepare the fly-breeding, disease-spreading, fire-inviting accumulations or rubbish in piles in front of his residence, and the wagons hired for the purpose and paid for by the city will cart it away. You can easily do that much. Well do it.

The Merchants' Association of Newark took the matter up this year, some weeks ago, and through its efforts and yours Newark's Clean-up for 1914 is considered certain of success.

Meets General Approval

The trend of education has been more and more toward practicality in the results sought to be accomplished, and those who have had large experience in the instruction of the youth of the land, are as one upon the proposition that the best mental training can be given in pursuing studies that have a utilitarian value in their proximate as well as ultimate development.

This is a day and age of specializing, and the training of a boy in the public schools is being based upon the idea of fitting him to make an intelligent choice of a life work, while at the same time furnishing him with some of the mental equipments, as well as rudder with suit. For this idea to bear the proper fruit, the curriculum in the grade and high schools has been broadened, the old system of graduating a large class of students, who have been shaped in the Procrustean mold of stated proficiency in the same narrow branches of study, has become obsolete. Under this ideal of education a boy of 18 years, who had for the last three of his school life shown peculiar mental trend toward

a certain line of endeavor, was arbitrarily put through the same process of instruction as every other boy. The results was that when a high school class was graduated, the members were indeed cast upon the sea of life without a definite chart of his opportunities and environments, as well as no rudder with which to guide his bark safely into the haven of success.

The Newark public schools have always been in the van of educational progress and today none better exist. In them, the child from his entrance to his completion of the course, is constantly surrounded with influences, opportunities and incentives toward development of his intellect and character, in accordance with natural mental predilection and high standards of moral excellence.

Strictly in line with this idea comes Superintendent Wilson Hawkins' suggestion to not only provide for the student's edification during school hours, and term time, but also for that time which is the most prolific for good or evil in the boy's life, vacation time. The superintendent's suggestion is most opportune and has received high endorsement from the press of Ohio, and the promise of co-operation from the ones to whom the appeal will come.

He does not believe that aimlessness is conducive to healthful recuperation of physical or mental resources. So he advises that during the three month's vacation period which will soon begin, the boys be given some congenial employment, if possible, in some activity, either commercial or industrial, that gives opportunity to develop in practical experience what has been learned by them in the classroom. To provide this he appeals to merchants or factory owners to aid in this laudable project.

But he goes still further and urges the Board of Education to co-operate in the plan, which is given in his own words:

"Commercial and industrial organizations might furnish the land, the Board of Education might furnish the instructor. Suppose a piece of tillable land of thirty or forty acres was placed at the disposal of the Board of Education for this purpose; that the Board would select for one of its high school instructors a man trained scientifically to give instruction in agriculture; that this instructor would be employed by the year, teaching, the theory of agriculture during the fall and winter months, and directing the actual work of these boys during the afternoons of the spring and all day during the summer months. I believe this could be done without increasing the total number of high school teachers, for boys who enter this department would lessen the number in other departments. I believe that fifty or more boys would undertake it each season, and that such a department could grow into an extensive agricultural experimental farm that would finally benefit all Licking county farmers."

If Newark should undertake this work, it would be practically the first city in the country to do so.

When Representative Oscar E. Diser, of Youngstown, was making his attacks upon Democrats in the General Assembly last winter he was charged with advertising himself as a Congressional candidate. This he denied vociferously. Yet last week the Youngstown Telegram carried his formal announcement of candidacy. Take your choice of the statements!

Ohio is a farmer on a large scale. This year over 50,000 acres will be cultivated by inmates of State institutions and the crops used to reduce the cost of their keep to the taxpayers.

Standpat organs endeavoring to create trouble for President Wilson this week printed alleged expres-

sions of hostility on the part of leading Democrats to the policy of accepting mediation. Among the lists were discovered the names of those sterling old Jacksonians, former Secretary of State Daniel J. Ryan and Charles L. Kirtz, at one time Chairman of the Republican State Committee. How did they come to overlook that other hero of Democracy, J. Benson Foraker?

It passes all human understanding why the Republican leaders persist in bringing out candidates against Hon. Edward C. Turner, of Columbus, one of the few honest men left in Ohio, in order to battle his ambition to become Attorney General, especially since he has sworn to this personal recommendation.

How times have changed! Traveling inspectors purchasing frogs and strawberries and registering at fancy priced hotels are having their expense accounts rejected by the stern Auditor of State. "It didn't use to be so" in the good old days of Guilbert, Wellington and Poe.

New York banks are refusing to pay the city over two per cent. upon its millions of deposits. Here in Ohio within a week State Treasurer Brennan got about 4 per cent. on the surplus funds of the workmen's compensation account. Ohio is not so slow.

The weather is getting too hot for "get together" feeds and the separated brethren who follow the banners of Taft and Roosevelt seem to be as far away from each other as ever. Why not try "get together" pic-nics?

Live, horse, and you'll get grass, says the old proverb. Trust us and we'll give you the rainbow say the Republican leaders to any and all whose ears they can reach.

On Second Thought

What has become of the old-fashioned girl who fainted?

A woman is pretty good at pitying other women's husbands.

Every broken-down politician is against the bosses, and that is where most of the opposition to the bosses originates.

"He is the sort of fellow," said Eph Wiley yesterday, in discussing his son-in-law, "who would put a galvanized iron ceiling in a million-dollar building."

When a small boy needs a whipping it isn't the felt slipper, that is felt the most.

When Adam Swisegood died, not long ago, it was found that he was worth a quarter of a million dollars. As everybody had believed him to be in very modest circumstances, the size of his estate created a great deal of talk. Those familiar with Mr. Swisegood's affairs say he got rich by leading his wife to believe he was doing business at a loss.

About all a boy has to look forward to is the gold watch which his father gives him on his twenty-first birthday anniversary. But a girl expects a musical education, a trip to Europe, and a two thousand-dollar trousseau.

Our town is not unduly critical of the sartorial accessories of its citizenry, but there is some talk because Laban Cain plays golf in his second, best evening trousers.

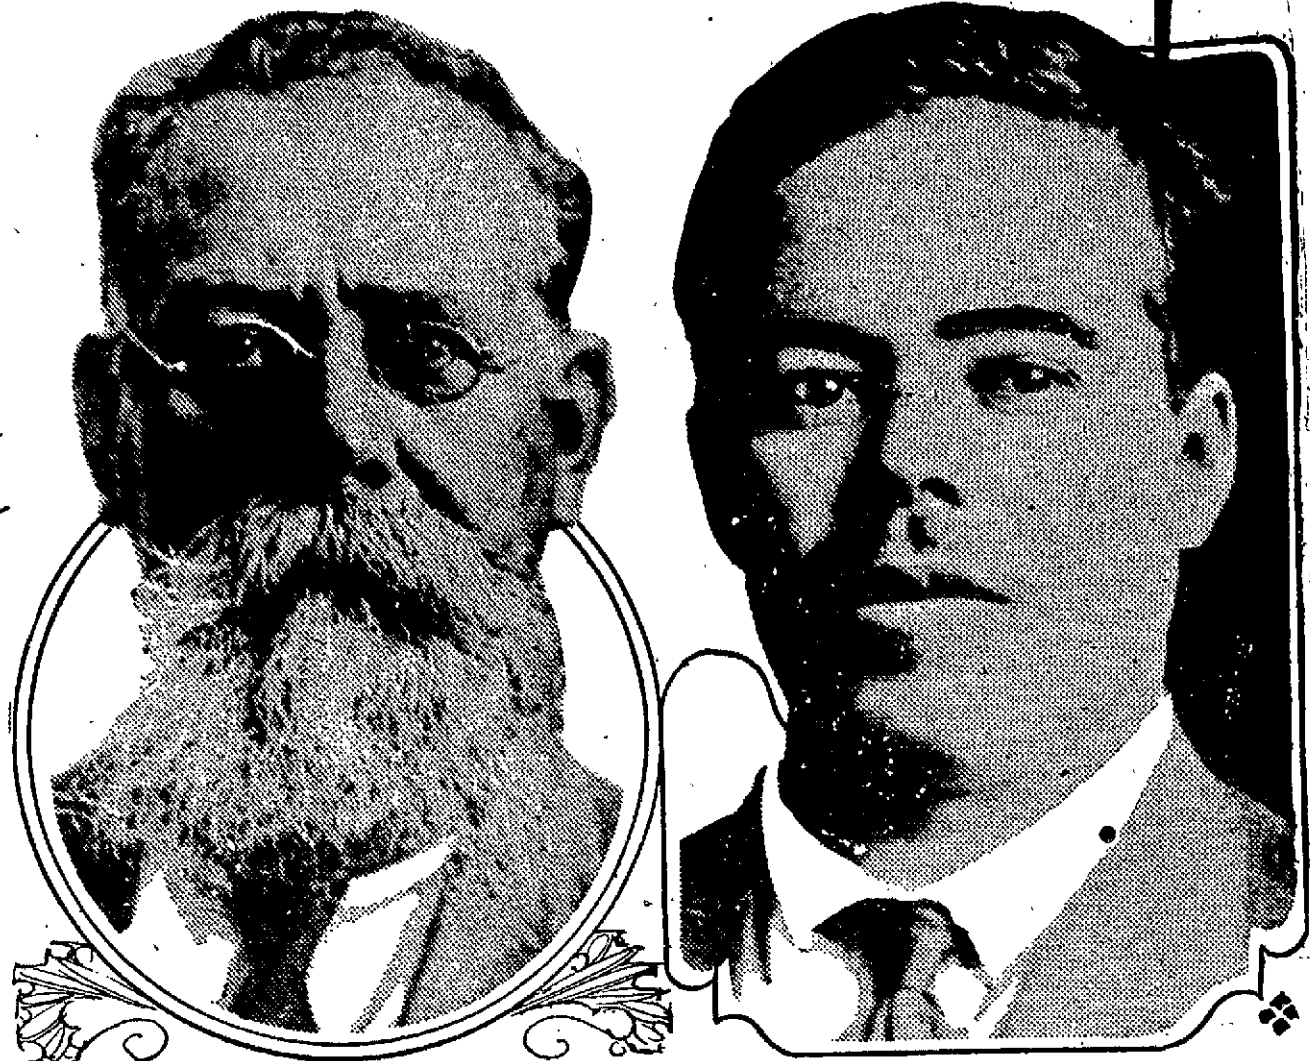

There are a number of unexplained mysteries. One of them is the little man's desire to dance with large women.

A sneering enemy is of more value to the average man than a devoted friend.

Doughnuts.

I seek the high class eating joint, when my old stomach gives a wrench, and there the waiters proudly point to bills of fare

got up in French. I order this, and order that, in eagerness my face to feed, and oftentimes I break a flat pronouncing words I cannot read. And as I eat the costly greens, prepared by an imported cook, to other times and other scenes with reminiscent eyes

I look. My mother never was in France, no foreign jargon did she speak, but how I used to sing and dance when she made doughnuts once a week! Oh, they were crisp and brown and sweet, and they were luscious and sublime, and I could stand around and eat a half a bushel at a time. The doughnuts that our mothers made! They were the goods, they were the stuff; we used to eat them with a spade and simply couldn't get enough. And when I face imported grub, all loaded down with Choctaw names, I sigh and wish I had a tub of doughnuts, made by old-time dames. I do not care for fancy frills, but when the doughnut dish appears, I kick my hims foot over the talls, and whoop for joy, and wag my ears.

A DAILY THOUGHT.

Tomorrow will be Newark's spring "Clean-up" day. Just think what it means for the old town and for everybody who lives here if all will join in cleaning up their homes and premises. It means better health, greater safety from fire, more civic pride, a more inviting town—a better place in which to live and earn a living.

Child Cross? Feverish? Sick?

A cross, peevish, listless child, with coated tongue, pale, doesn't sleep; eats sometimes very little, then again ravenously; stomach sour; breath fetid; pains in stomach, with diarrhea; grinds teeth while asleep, and starts up with terror—all suggest a Worm Killer—something that expels worms, and almost every child has them. Kickapoo Worm Killer is needed. Get a box today. Start at once. You won't have to coax, as Kickapoo Worm Killer is a candy confection. Expels the worms, the cause of your child's trouble. Opportunity For Exercise Of High Citizenship Being Given By Board of Trade

The public should, before criticizing the work of an individual or organization, always investigate thoroughly the motives that are behind any overt action, with a view of making an impartial estimate of the usefulness of any proposition of which that act is a consequence. In general this is true and particularly it is applicable to the present plan of industrial development of the city, now being put in operation by the Newark Board of Trade.

The precinct committees that are now at work soliciting contributions for the factory fund that is being created have little trouble when it is explained that the sole object of the present board's plan is to secure new factories to locate in Newark. This factory fund being raised can only be used for this purpose, and for no other.

No one can thoughtfully criticize such a plan adversely. The location of new factories in any city has certain definite results, that are inevitable, a larger employment of labor, bigger pay rolls, more money spent

among the city's merchants, and the final result is more prosperity, happiness and contentment.

A concrete example of this of most recent date is the Pharis Rubber Tire company, located in West Newark. This was a new industry, and was secured by the Board of Trade, with which body the company entered into a contract for certain considerations, it would for a definite time keep in employment a minimum number of men. This was only a little while ago, and yet the rubber plant now has over a hundred men working at top speed to get out the product.

Is not this plant a boon to that community? Can any one gainsay its utilitarian value to the entire city? Thus it is always with this phase of human activity. The Board of Trade intends to get new factories to increase Newark's prosperity and asks you to help. It is your duty as a citizen to help make your home better, and the Board is merely giving you an opportunity to do this duty in a pleasant manner yet one wonderfully effective.

CURED HIS RUPTURE.

I was badly ruptured while lifting a trunk several years ago. Doctors said my only hope of cure was an operation. Trusses did me no good. Finally I got hold of something that quickly and completely cured me. Years have passed and the rupture has never returned, although I am doing hard work as a carpenter. There was no operation, no lost time, no trouble. I have nothing to sell, but will give full information about how you may find a complete cure without operation, if you write to me, Eugene M. Pullen, Carpenter, 130 Marcellus Avenue, Manhattan, N. Y. Better cut out this notice and show it to any others who are ruptured—you may save a life or at least stop the misery of rupture and the worry and danger of an operation.

Obituary

Dr. J. N. Wright.
Dr. J. N. Wright was born in Monroe township, Licking Co. August 6, 1838. He was the son of James N. and Effie Wilson Wright, both natives of this county. His grandfather, Mr. S. S. Wright was one of the pioneers of the county, having settled on a tract of land between Alexandria and Johnstown when the country was still infested with Indians.

Until early manhood, Dr. Wright remained on his father's farm, attending the township schools where he acquired his early education. When 18 years of age, he attended an academy at Woodstock, preparing himself for the study of medicine which he took up a few years later in the medical department of Michigan State University at Ann Arbor. He was graduated in 1882 and took up the practice of his profession in Union county the same year.

On October 18, 1882 he was married to Miss Florence L. Hill of Johnstown. Dr. and Mrs. Wright took up their residence in Union county where they remained until 1897 when Dr. Wright returned to his native county, settling in Johnstown where he continued the practice of medicine.

He was elected county auditor of Licking county in the fall of 1904, taking up the duties of his office in 1905, removing to Newark from Johnstown. He was the first Republican ever elected to that office in Licking county.

Besides his widow, he is survived by the following children: Mrs. Edna Hoskinson, of Elmhurst, Ill., near Chicago; Miles L., Donald M., Gladys, Paul and Hill Wright, all of whom are living at home except Mrs. Hoskinson.

Dr. Wright took an active interest in fraternal organizations affiliating with the Macabees, Knights of Pythias, Elks and Modern Woodmen. He also ranked high in Masonry, being a Knight Templar and a noble of Aladdin Temple of the Mystic Shrine. He was also a member of the Licking County Medical society.

In 1913 Dr. Wright was appointed as a member of the county board of Licking License Commissioners of Licking county. Governor Cox recognizing him as a member of the Progressive party in giving him the appointment. He has served in that capacity with Prof. O. C. Larson until his last illness which came upon him several months ago.

Dr. Wright was a painstaking and conscientious public official and his affable disposition won him much commendation and made for him many friends who held him in high esteem.

Margaret Elizabeth Bingham.

GOV. J. M. COX
ADDRESSED WORKERS

(ASSOCIATED PRESS TELEGRAM)
Columbus, May 5.—Members of the Amalgamated Association of Iron, Steel and Tin Workers of North America met here in their thirty-ninth annual convention today at the chamber of commerce auditorium. The delegates were addressed by Governor Cox, Mayor Karb, Joseph Bishop, the first president of the association, Benjamin I. Davis, of Pittsburgh, and President John Williams, of Pittsburgh.

Governor Cox spoke in particular of the compensation law that Ohio has initiated, and expressed a hope that the other states as well as the federal government would pass similar laws.

Fred Cook, who for many years has performed the duties of bell ringer for Eastport, Me., has resigned his position owing to illness.

LESSON XI—PART IV.
PHYSICAL CULTURE.
A Veteran Actress.

The veteran actress Sarah Bernhardt, born in 1844, is a wonderful example of the effect of well-directed physical exercises on the body. Madame Bernhardt's body is still young and like in its movement it is not the physique of a young girl, but it is far from being the physique that we associate with a woman past sixty. She has a perfect carriage. She has never allowed an accumulation of flesh on any part of her body and she can play young roles today simply because her body can still respond to youthful enthusiasm. She is the example of a woman who has never deviated one moment from physical culture. She has always been a great believer in massage. She has fenced a great deal, an excellent exercise for keeping the limbs supple and the movements quick. She has treated her physique intelligently understanding what it needed, building up when necessary and reducing excess flesh as soon as there was any hint of its appearance.

Bad Habits.
As Madame Bernhardt has always trained her body she has had no bad habits to overcome. She is an example of a physical training that never "lets up." At the same time hers is not a temperament or physique inclined to grow very stout. What she has to combat as years go on is stiffness—lack of grace or vigor. Women who do not accumulate flesh as they grow older are apt to think this sufficient to give them a youthful appearance. This is not always so, there is a stiff, angular middle age quite as unlovely as too much fat. At this period there is also a tendency to figure into the waistline, becoming shorter and erect—bad habits that can be avoided by proper, regular physical exercises.

The Young Housekeeper.
To suggest physical culture to the housekeeper and mother may seem at first almost cruelty, the adding of another burden to an already too full day and to muscles already overworked. But this busy, hard-worked housewife does not know that a few minutes of physical culture to bring vigor and elasticity to her movements, and to exercise unused muscles so they may aid and help out those which at present seem too much used.

She can at least devote a few minutes each day to restful physical culture. If she can do no more, night and morning, let her go through the series of breathing exercises outlined in Lesson X. This will accomplish at least two things: it will keep the blood so that the bodily tissues are promptly renewed, and teach correct posture so that she will stand proud and not weariness from her daily tasks. Housework is excellent physical culture, if it is properly done.

Lesson XI to be continued.

LITTLE DISCUSSIONS OF LOVE AND MARRIAGE

BY BARBARA BOYD

Is the Home Wrecked?

"I heard rather an amazing statement today about the family at home," observed the Clubwoman.

"What was it?" asked the Young Married Woman, looking interested.

"A prominent authority on economics and sociology said that the family stands today in modern society shattered to its foundations. That sounds rather startling, doesn't it? We are all horrified at an earthquake that shatters a city and wrecks things generally. But if this statement is true, it seems to me it is much worse, don't you think, because it touches so much more vital things?"

"Does he mean, I wonder," thoughtfully replied the Young Married Woman, "that there has been some sort of moral earthquake that has shattered the home?"

"No, I think he means there has been a sort of deterioration among the people that has rotted away the foundations of the home, and so the home as an institution has collapsed."

"Some of the old foundations certainly have slipped away," meditated the Young Married Woman. "Things are in such a mess now it is difficult to tell where the trouble began, whether in woman's desire to express her individuality—and she should not be a slave, a nonentity or an echo—or in the loose ideas we are getting about marriage, or in woman's entrance into business, and in the general desire to throw off the responsibilities of family life."

"Every one of these is a rather big problem," said the Clubwoman. "And when they are combined, they certainly make a big enough force to wreck almost anything. To me, the loose ideas of marriage that are spreading are appalling. I know a family, and they are not an undecorated family, either, as the term goes, in which the mother has been divorced and married again twice, and in which one daughter is divorced and waiting to marry the husband of her sister as soon as this divorce is obtained. Now what idea of family life or marriage can children in such an environment obtain! And there are hundreds of such cases in this country, some perhaps not quite so extreme, and others more so. Children growing up in such home atmosphere have no more idea of the true meaning of marriage than has a savage. And yet these people are accepted members of society."

"And I know lots of families," said the Young Married Woman, "where the members meet around a common table under the same roof, but who have absolutely no interests in common. They are a family in name, but in nothing else. Children growing up in such a home atmosphere have no idea of the true meaning of the word home."

"Perhaps," said the Clubwoman, "it is all working toward our getting a bigger idea of family and home. We may emerge from this chaotic condition with the understanding that after all, we are all members of one big family, and that home does not mean the four walls of some 'one house.'"

"But in the meantime," sighed the Young Married Woman, "those who belong to the transition time, who believe in the old idea of marriage and home and family, have rather an unhappy time."

"I always thought the process of evolution rather hard on the connecting link," laughed the Clubwoman. "Perhaps that is the reason he is never found. Life has been so strenuous for him that he is worn till not a vestige remains. He entirely disintegrates under the pressure."

"And perhaps the earlier in the game the better," sighed the Young Married Woman.

"Not till he has played his part," commented the Clubwoman. "It may be more painful than pleasant, for him, but he is necessary. And those of us who may be living in this transition period may be building the family and home of the future better than be known."

BACK CARRANZA WILSON'S PLAN

Said to Be Logical Man to
Take Control of Mexico.

OUTLOOK IS A GLOOMY ONE

Any Leader Sure to Encounter Fierce
Opposition—Senate Considering Various
Matters, but Real Results Are
Few—Grain Inspection Bill May Pass
During Present Session.

By ARTHUR W. DUNN.

Washington, May 5.—[Special.]—It is natural that the administration should keep secret its intentions regarding future developments in Mexico after Huerta has been eliminated. At the same time there is speculation as to just what the president and his advisers have in mind when they have accomplished the first object. From different sources it has come out that the United States government will get behind Carranza in an effort to have him attempt to pacify the unhappy republic.

It is said that a careful canvass of the situation has convinced the administration that Carranza is the only man in sight who can take control of the government of Mexico and bring order out of the chaotic conditions which exist. Most people believe that Carranza cannot get an opportunity unless he is supported by the United States, but if that is one of the policies of the future such support will be forthcoming.

A Gloomy Outlook.

No matter how we may view the Mexican situation, no matter what policies a map may have, there is nothing ahead but a gloomy outlook as long as the United States is involved. We who know the character of the people of Mexico, the ambitions and aspirations of the leaders and almost helpless condition of the common people, are aware that as long as this government undertakes to do anything in that country it will have fierce opposition. The Mexican leaders would rather fight out their own battles, settle their own quarrels in their own way, no matter what the cost may be or how disastrous the effect would be upon the people. In fact, the people are the least consideration there is in the mind of the average Mexican revolutionist.

Senate Inattention.

It has been almost impossible to get the senate to pay any attention to what is going on unless something springs up in regard to Mexico. In a sort of haphazard way the senate has been considering several measures during the past few weeks. The senate would talk radium for awhile, then it would talk postal savings, then it would switch on to the grading of grain, and between times an appropriation bill would be taken up. But only when conditions in Mexico were discussed would the senate keep still and the senators give attention.

"Many elucidating speeches and several important measures have been made in the senate recently," commented Senator Burton of Ohio, "but few senators have been listening to them." And, what is more, they will not know much about voting on them.

More Time Needed.

Congressman Borland of Missouri was making a speech about the District of Columbia and was interrupted by Congressman Moore of Pennsylvania with a rather knotty question.

"Oh," remarked Borland, "I am like a man down in my state. I cannot give you gentlemen a college education all in one morning."

Among the Leaders Now.

At the beginning of the present congress, the first in which the Democrats had control of the senate in many years, Senator Hoke Smith of Georgia made a strong and successful fight upon the old system of giving a few senators all the good committee places. In making this fight Senator Smith landed on finance and several other good committees. Besides that, he is a member of agriculture and post-office and post roads. It is altogether likely that the Georgia senator will make no further complaint about one man having too many important committee assignments.

McCumber Persistent.

Senator McCumber of North Dakota shows his Scotch ancestry in everything he does in the senate. From the time he entered the body he has been one of the most persistent men in following up anything that he really wants. It is due to him to a large extent that congress passed the pure food law. Almost single handed and alone McCumber is now making the hardest kind of fight providing for the government inspection of grain. He may not win, but he will make a lot of trouble before he finally loses.

The Power of the President.

I have mentioned several times the power which the president wields, and I mention it again to quote Senator Borah of Idaho. We were talking about the fact that the president always has the support of the people as against congress in almost anything that he undertakes. "The people do not know yet that we have assumed a monarchial form of government," remarked Borah, who has many times complained about the overriding of the power of congress by the executive.

Eloquent Discourse on the Special Call of Christ's Church.

ANointed TO BE KINGS.

Jesus the Head—The Church the Body. Special Training For Office—Who May Qualify For Election—Terms and Conditions to Be Met—Patient Continuance in Well-doing—Character-likeliness to Christ the Necessary Qualification—Suffering With Christ. Three Classes That Enter Race For Prize—Only One Will Be Successful.

(PASTOR RUSSELL)

New York City, May 3.—Pastor Russell was at home today, and in the forenoon occupied the rostrum of his Temple Theater on West Sixty-third street, just off Broadway. The Temple is the headquarters of Pastor Russell's famous Photo-Drama of Creation. It was here that his charmingly instructive Story of the Bible in Moving Pictures was launched last January, and it is still being exhibited to large audiences, every afternoon and evening, Sundays included. When the Pastor is absent from the city on Sundays, the Temple pulpit is occupied in the forenoon by one of his able assistants.

Readers of Pastor Russell's worldwide, syndicated sermons are familiar with the rapid increase of productions of the Story of the Bible in films, panoramas, etc., as exhibited in his Creation Drama, it being produced now in the principal cities of the country.

Pastor Russell's theme this forenoon was based upon the text: "If any man will come after Me, let him deny himself, take up his cross and follow Me."—Matthew 16:24.

God purposed from before the foundation of the world, said the Pastor, to establish a Kingdom for the blessing of all mankind. In His infinite Wisdom the Almighty had foreseen the entrance of sin and its penalty of death. He also knew His own great Plan whereby He would set aside this curse

or death and bring in a blessing to the whole human family.

This Kingdom, the Pastor explained, is to be different from any other in that its Monarch will be not only a King, but also a Priest. For this reason, he declared, Christ is said to be a Priest after the Order of Melchizedek, who was a priest upon his throne. Christ is to be both King and Priest at the same time. His anointing with the Holy Spirit at Jordan was to represent His induction into the place of favor where in due time He would be the authorized King and Priest, recognized as such by the Almighty God.

The Pastor then showed that the condition upon which God would appoint any one to the office of King and Priest was this: The one accounted worthy of this high honor must first demonstrate his obedience to the Father even unto death—an obedience that would respond to any requirement that the Father might please. When Jesus made a consecration of Himself at Jordan, He offered Himself to meet the conditions. As He said of Himself later, "I came not to do Mine own will, but the will of My Father."

The work to be done was first to prove Himself worthy to be the great King, the great Priest; and thus He would be given authority to bless the world. Secondly, this very sacrifice of Himself, by which He would demonstrate His worthiness to be the great Priest upon His Throne would be a Sin-offering on behalf of humanity, to pay the Ransom-price for the world, and thus to set aside legally and justly the penalty which God had pronounced against Adam and which affected all his posterity.

The Pastor next pointed out Jesus' steps to fulfillment of God's Plan. At the age of thirty years our Lord consecrated Himself to do the Father's will, saying, as foretold by the Psalmist, "Lo, I come: in the volume of the Book It is written of Me, I delight to do Thy will, O My God!" (Psalm 40:7, 8). Then for three and a half years the Master was thoroughly tested to demonstrate that He had really meant all that He said when He made that consecration Vow unto God. When on Calvary He cried, "It is finished," He referred to His demonstration of loyalty and obedience to the Father's will. His fulness of laying down His life in the Father's service, His work as Purchaser of the world, was finished.

The Gospel Call.

Continuing his argument, the Pastor declared that God raised Jesus from the dead on the third day in order that He might be a Prince and a Savior. (Acts 5:30, 31.) But although more than eighteen centuries have passed since then, the world is still unsaved. The speaker then showed that during this time God has been calling a class out of the world for a special purpose. This special call of the Gospel Age is to the effect that as many as hear this Message are privileged to become upon certain conditions, members of

this special class which God is selecting—this "Body of Christ, which is the Church."

The Pastor then stated the terms and conditions upon which any one is eligible to membership in the Body of Christ: The Father gives the invitation while the High Calling of this Age is open. He nominates those who accept the call, but each must elect himself by compliance with the terms and conditions. The speaker explained that the call is a drawing toward God—a desire to come near to Him. Some have it from birth, others get it at their mother's knee, others through a hymn, a book, through hearing the Scriptures, etc. Whatever thus points to Christ as the Way to God constitutes a call, an invitation.

Walking in the Narrow Way.

Those who have heard the call, continued the Pastor, must learn that the first step is to turn away from sin. Next they must learn that God has made provision through the death of His Son whereby sins may be forgiven. To those who take these two steps the Savior says, "If any man will come after Me, let him deny himself, take up his cross and follow Me." The speaker explained that to deny one's self is to give over one's self-sufficiency, one's desire to do his own will, and to accept instead the Divine will. It is just as if the person had died; he is no longer his own. He has died to all earthly ambitions, hopes, aims and desires, and receives in their stead new ambitions, hopes, aims and desires.

The Pastor next showed what it is to take up the cross. One just starting in the narrow way to life will not know what his cross is to be. But gradually he will perceive that it is the crossing of self-will with the Divine will. This will be manifest in various ways, which may not be fully understood at first; but if the consecration was genuine, every trial will sooner or later prove to be a blessing, and the child of God will learn to rejoice in what once seemed to be tribulation.

Then the Pastor explained what is meant by following Christ. This signifies patient continuance in bearing the cross. The one walking in the narrow way must demonstrate to Divine satisfaction that the character is fixed for truth, loyalty to God, to His Word, to the principles of righteousness.

This does not mean that the flesh is to be perfected, the Pastor claimed, but the New Creature—the new will. God well knows that in fallen human nature there dwells no perfection. Whatever is done in spite of one's endeavors to do right results from fleshly weakness, and is not counted as sin. But whatever wrong is done willingly is sin. The weaknesses of the flesh, of the fallen nature, are covered with the robe of Christ's righteousness. Therefore it is the New Creature's privilege to go on from grace to grace, thus becoming more and more a copy of God's dear Son, our Lord and Savior.

The Church, Which is Christ's Body.

According to the Pastor, all who have taken these steps have come into the Body of Christ, the Church, which is composed of all begotten of the Holy Spirit. These were begotten of the Spirit at the moment when they presented their bodies living sacrifices in Jesus' name. Then they were immediately accepted of God and became members in the Body of Christ, all of whom have the same anointing as that of the Head of the Church.

In the case of the Apostles there was a particular manifestation on the day of Pentecost.

The Holy Spirit, which had first come upon Jesus the Head, on that day flowed down upon the shoulders, so to speak, the Apostles being the first members of the Body. Since then, all who come into the Body come under the same anointing, as members in particular of the Body of Christ, related to Jesus as New Creatures in Christ, to whom old things have passed away and all things become new. We are not to speak nor to think lightly of any one whom God accepts into this Body and who has, through consecration, received the begetting of the Holy Spirit.

The Glorified Body of Christ.

The Spirit-begotten Body of Christ, the Pastor thinks, will not be altogether the Body of Christ in glory. He believes that some who are now on probation will prove to be unworthy to be members in that glorious Body. Only those who, after having been begotten of the Holy Spirit, shall press faithfully on to the end of their course, will become the real kings and priests of the future. He then explained why some will fail to make their calling and election sure to permanent membership in the Body of Christ. These, he declared, will be of two classes. One class who fail to make their calling and election sure to membership in the glorified Body of Christ are those who turn away from the holy commandment, who return to wallowing in the mire of sin. For this class, St. Peter says, there remains only the blackness of darkness—the Second Death. (2 Peter 2:17, 21, 22.) These have had all their share of the

blessings and have misused them; and so there is nothing further for them in God's Plan.

The other class who also fail to reach the goal of membership in the glorified Body of Christ are those who have neither denied the Lord that bought them nor returned to wallowing in the mire of sin, but who have lacked zeal. These have failed to persevere so faithfully in the narrow way that the Father could count them copies of His Son Jesus and receive them to the Heavenly Throne and glory. These are variously pictured in the Bible. In one of our Lord's parables they are designated "foolish virgins."

The Pastor then explained briefly the import of this parable. The word virgin means pure one. The entire Church of Christ is pure. The wise virgins are those of the Church who will use present opportunities and blessings so wisely that they will make their calling and election sure. They will be wise enough to lay aside every weight and besetting sin, and run with patience the race set before them. The foolish virgins are those who, after having given up the world and having accepted Christ, will nevertheless try to hold on to the world, while walking slowly toward the Lord. If this class keep on in the narrow way at all, they will eventually be conquerors, yet they will not be those "more than conquerors" to whom abundant entrance into the Kingdom will be granted.

These foolish virgins have been all their lifetime subject to bondage because of their fear of death of the flesh—the old nature. They are not courageous enough to follow the Lamb whithersoever He goeth, although they are loyal, faithful. These, the Pastor believes, will get the secondary prize. Instead of being on the Throne with our Lord, they will be before the Throne, instead of wearing the crown, they will have only a palm branch.

When the foolish virgins shall have passed through the great tribulation mentioned in Revelation 7, they will be a grand class. But they might be in the highest class if they were more zealous. It remains with themselves to make their calling and election sure. God nominated them, but they fail of election because they fail to have sufficient zeal, love and earnestness to gain the great prize of joint-heirship with Christ in the Messianic Kingdom.

These different classes, the Pastor declared, are all one Body at the present time; for all are called in the one hope of their calling, and there is no decision yet as to the two classes. All who receive the Holy Spirit are one company now. But at the end of this Age the great Master will make the division between the two classes of virgins—between the wise and the foolish, between the Great Company and the Little Flock. At the present time, however, all who are begotten of the Holy Spirit belong to the probationary Body of Christ. But after the division shall have been made, only the Little Flock will be of the permanent Body of Christ—the Church in glory, clothed with glory, honor, and immortality.

Suffering With Christ.

Next the Pastor discussed various texts which declare that all the followers of Christ must suffer in the flesh, even as Jesus suffered. He pointed out the nature of our Lord's sufferings, who was misunderstood, slandered, misrepresented, etc. While the followers of Jesus cannot possibly expect to suffer in all the ways that the Master suffered, nevertheless they have similar experiences to His. It is a mistaken idea, the speaker maintained, to believe that suffering is a sign of Divine displeasure. No Christian thinks that the Father was displeased with our Redeemer; on the contrary, as the Scriptures say, Jesus was holy, harmless and separate from sinners. And yet our Lord suffered much—it pleased God to bruise Him, to put Him to grief, to put Him to shame.

The thought is not that the Father took pleasure in the sufferings of His Son, but that in the great Divine Plan it seemed wisest and best that He should subject the Son to severe tests in order that both angels and men, looking back at Jesus' experiences from Jordan to Calvary, could see that He was faithful unto death; and in order that the reward of Jesus' obedience might be manifest—that all might see the condition upon which God

Remington Typewriters

are
Built UP to a Standard
Not DOWN to a Price

THE fame of the Remington as "the Recognized Leader Among Typewriters" is an asset. It is also an obligation. The typewriter-using public expects more and demands more of the Remington product than of any other. We are glad of it. This demand proves Remington leadership. The public merely demands what it has been educated to demand—educated by Remington standards.

Unswerving adherence to a standard is always the price of leadership. The Remington Typewriter maintains its leadership in the same way that it won its leadership; by recognizing only one standard—THE BEST.

The latest achievements of Remington leadership are the visible models 10 and 11 and the Adding and Subtracting Typewriter. Have you seen them? If not, call in or send for illustrated booklet which will tell you the very last word in typewriter development.

Announcing the New PERMIT Process That Makes PERMIT the Only Cigar of Its Kind

The manufacturers of
PERMIT recently perfect-
ed the wonderful new
PERMIT Process—the
greatest scientific achieve-
ment of modern cigar
making.

Under this Process the
choice tobaccos used in
PERMIT are skillfully
treated by improved meth-
ods that bring out more of
the mellowness, mildness
and flavor of the leaf—
get greater richness and
smoothness into the blend
—than is possible under
any of the old methods used
throughout the cigar busi-
ness today.

As a result, the quality

of this famously good, clean,
hand-made cigar is now
distinctly remarkable—
PERMIT today is proving
to smokers a revelation of
enjoyment.

No other cigar can dupli-
cate the new PERMIT qual-
ity, because the PERMIT
Process is a secret, known
only to the PERMIT manu-
facturers.

We ask every smoker in

Next week will be Patrons week in the schools. The Board of Education and teachers invite all interested citizens whether parents or not to visit the schools some time during the week. Teachers and children are expecting many visitors. You are welcome at any hour of the day. The schools belong to the people. Last year 1210 visits were made during Patrons week. We hope this number may be increased to at least 2000 this year. Do not be backward about visiting the schools. No special programs until Friday afternoon when 300 High School pupils will render a patriotic chorus at 2:00 P. M.

Arbor Day was celebrated with more than usual interest on April 24th. High School pupils furnished and planted 30 elm trees on the White playground. The Board of Education furnished 50 maple trees which were planted by pupils and janitors on the ground where new buildings are located. Thousands of packages of flower and vegetable seed were distributed to children at small cost and were planted upon their lawns and gardens at home. Programs consisting of songs, recitations, and readings were given in all schools.

The Board of Education has recently installed a new modern toilet system at the Riverside school building. With the completion of this work, there is not a school building in our city that does not have a sanitary toilet system. The public no doubt appreciates the Board of Education's efforts to provide school

EASY TO DARKEN YOUR GRAY HAIR

Try This! Mix Sage Tea and Sulphur and Brush It Through Your Hair, Taking One Strand at a Time.

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home, is messy and troublesome. For 50 cents you can buy at any drug store the ready-to-use tonic called "Weyth's Sage and Sulphur Hair Remedy." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning, all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant. You will also discover dandruff is gone and hair has stopped falling. Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Weyth's Sage and Sulphur and look years younger. Agents, Hall's Drug Store.

buildings that are safe and sanitary for the city's children.

The High School Commencement will be held on the evening of June 11th, when over 100 pupils will graduate. This will be the largest class ever graduated from Newark High. Last year there were 85 graduates. The junior class will give its play "The School Mistress" at the High School Auditorium on Friday evening of this week. This play has been directed by Mr. Parker and those who attend will spend a pleasant evening.

We desire to express appreciation to Congressman Ashbrook for several volumes dealing in agricultural subjects furnished through him to the High School library.

Hartzler school through its principal and teachers conducted an art exhibit during the week of April 22, and cleared \$161.00. It is estimated that almost 2000 people attended the exhibit. This money will be used in the purchase of pictures for the school rooms in this building. North Fourth St. school has purchased a Victrola. This is the third school in the city to purchase a Victrola this year.

A city teacher's examination will be held in the High School building on May 23rd. This will be the first examination under the new law. Wednesday, May 6th, is set aside by city officials as "Clean Up" day in Newark. The Superintendent of Schools urges all teachers to call attention to this before dismissing pupils on the afternoon of this date that they may go home and assist the home folks in cleaning up about their premises. Janitors are also requested to give some special attention to cleanliness about the buildings and yards.

122 visits were made to the homes of children by teachers during the month and 991 such visits have been made during the year. 424 visits were made by parents and others into the schools, 227 of which were by parents. The Superintendent made 79 visits to the various school rooms, inspecting the work of teachers and pupils.

The following teachers deserve special mention for having average attendance of 96 per cent. or above:

Helen Nichols, 96; Florence Meyer, 97; Thora MacDonagh, 96; Margaret Brown, 96; Dora Brenstahl, 98; Gertrude Hawke, 97; Elizabeth Watkins, 96; Janet Jones, 96; Rose Pugh, 96; Jessie Severe, 96; Edith Nulton, 97; Carrie Kirby, 97; Mary Adam, 96; Mary Hammond, 97; Anna Lyon, 96; Nellie Lavin, 96; Ida Henry, 96; Mabel Mitchell, 96; Edith Woodward, 96; Katie Murphy, 98; Faith Frye, 96; Thelma Miller, 98; Daisy Stuart, 97; H. F. Moninger, 97; Eunice Thomas, 96; Clara McDonald, 96; Helen Pigg, 99; Anna Frye, 96; Martha Sinner, 97; Gertrude Avey, 97; Emily Hall, 97; Esther Kissane, 97; Flavia Dunston, 98; Jessie Brown, 98; Mary Palmer, 96.

61 teachers report no tardiness in their schools during the month and out of 4013 pupils there were only 85 who made tardiness. This is a splendid record of punctuality for Newark school children.

OLENTANGY PARK OPEN FOR SEASON AT COLUMBUS O.

On Sunday, May 3, beautiful Olentangy Park, Columbus, O., the favorite amusement resort of thousands of people in Columbus and towns throughout the state, opened its sixteenth season under the management of Messrs. J. W. and W. J. Dusenbury. Over twenty-five thousand people visited the park grounds on the opening day.

Olentangy is more beautiful than ever before this season. During the winter and early spring months, many improvements have been made, which add greatly to the beauty of the grounds and the amusement facilities. Some of the most important of the improvements are to be found at the boat landing. New concrete walls have been built, and a new concrete dam constructed across the river, which will insure splendid boating and canoeing all summer. A new boat house is being erected, which will have places for 300 boats and canoes, as well as private clothes lockers, shower baths, and all other modern conveniences. A new steel bridge has been erected across the ravine north of the theater building. In the theater waiting and retiring rooms for men and women have been added. On June 1, Vaughn Glaser and his stock company will open the summer season of stock at the theater. Additional cluster lights have been placed in various parts of the park grounds, and the grounds have been beautified to a greater degree than ever before. The facilities for entertaining excursion parties, have never been greater than they will be this season at Olentangy.

The week of May 11, a benefit will be given at Olentangy park theater by the Democratic Glee Club of Columbus, for Camp Johnson, where sick babies are taken care of during the summer months. This benefit will be in the nature of a vaudeville show. Beginning Sunday, May 17, Creatore and his famous Italian band will give concerts each day at Olentangy, for fifteen days. Many special free attractions will be offered at the park during the entire season. Each afternoon and night there will be dancing in the large pavilion. All the park's hundreds of rides, swings, and other entertainments are now in full running order for the season.

\$40.00 GORDON SEAT COVERS A BIG PRIZE

Every automobile owner and every prospective owner in Licking county and surrounding counties will keep their eyes on this splendid prize in the Advocate's big Booklovers' Contest.

The Advocate purchased from S. E. Forsythe, the well known Studebaker dealer at Fourth and Church streets, this \$40.00 Auto Gordon Seat Covers outfit. They are for the cushions, backs and doors, with a top slip cover to match, and cer-

tainly do add to the appearance of an automobile and make it more comfortable to ride in. They also prevent wraps and dresses getting streaked and spotted, and often ruined. The material is a double fabric of the best grade and wears like iron; the color does not soil or show the dust, is waterproof and easily cleaned with soap and water. It makes a handsome seat covering. Gordon Seat Covers are fastened with buttons, with a screw-down post, which is screwed into the frame of the seat. It is buttoned around the top with patent button fasteners, holds smooth as a glove.

A splendid line of the Studebaker four and sixes is now on display as well as a large line of the Maxwell cars. Mr. Forsythe will be glad to show and demonstrate these cars to you at any time. Call at the large new garage at Church and Fourth streets and look them over.

First class mechanics are kept to take care of the machines and a full line of supplies is always in readiness. You have just as good a chance yet to win the prize as any one. The time has been extended and all you have to do is to get the coupons and catalogue and you have plenty of time to send your solutions in with the others.

Annual May Festival.

The tenth annual May festival of the Columbus Oratorio society will take place May 25-26 in Memorial hall. The festival will be of an unusually interesting character, opening with the ever beautiful "Creation" by Haydn on Monday evening and Tuesday will have a double header bill. In the afternoon the artists will give a recital of their favorite songs and songs that have best pleased their audiences throughout the land. Tuesday evening the headline will be "The Wonderful Pene Hoss Shay," set to music by Percy Fletcher, and said to be one of the big successes—it is very descriptive and with the oratorio chorus of 210 picked voices, and four splendid soloists, it will be a rare treat. Chorus and solo work will be included in the evening's program. The soprano, Maude Klotz, has to her credit twenty-two festivals the past year. John Finnegan, tenor soloist of St. Patrick's Cathedral, New York, will sing the tenor parts. Marion Green will have his third engagement with the society for its bass. The contralto is as yet a secret. Subscriptions may be sent to Wilkin & Redman's music store, North High street, Columbus, O.

Orpheum Theater.

The vaudeville performances at the Orpheum Theater last night were well attended despite the bad weather. The various acts make one of the best vaudeville shows that has ever appeared in Newark. The people of Newark want to see good vaudeville and it is the aim of the management to always offer the best that can be had. If you have not attended at the Orpheum Theater lately you owe it to yourself to go and see the high class vaudeville that is being offered for your approval at this popular house. The bill is headed by Ava Muntell and Co., the world's greatest mind readers and psychic wonders of the age, this act alone is well worth the price of admission and many will attend to see this act alone. Her mind-reading feats are extremely wonderful and mystifying. She tells your past, present and future; answers any questions you may want to know. The seance that she does in a cabinet is a very mystifying feat.

The Habers comedy entertainers and character artists, have an extremely good act and are sure to please every one. Their comedy is clean and fast, their singing very good.

The Musical Willette, in a musical novelty, is one of the best musical acts that has ever appeared in Newark. His selections are all high class and well rendered.

The Campbells, singing, dancing and music, are about the classiest that has ever been at the Orpheum. The male member of this team is a comedian extraordinary, his equals in his line of work are few. Their comedy is fast, quick, catchy and clever, their songs are the very latest.

"Some people aim so high that they miss the mark entirely," remarked the Wise Guy. "Are you speaking of people who boast of laying up treasures in heaven?" asked the Simple Mug.

TAKE SODA IF FOOD SOURS IN ACID STOMACH

A well-known authority states that stomach trouble and indigestion is nearly always due to acidity—acid stomach—and not, as most folks believe, from a lack of digestive juices. He states that an excess of hydrochloric acid in the stomach retards digestion and starts food fermentation, then our meals sour like garbage in a can, forming acid fluids and gases which inflate the stomach like a toy balloon. We then get that heavy, lumpy feeling in the chest, we eructate sour food, belch gas or have heartburn, flatulence, water-brash, or nausea.

He tells us to get a package of 10 grain Sodagen tablets from any pharmacy and swallow one tablet anytime followed by a tumbler of water which instantly neutralizes these acids; stops food fermentation, absorbs the gases and sweetens the entire digestive system.

This suggestion should prove valuable to stomach sufferers here who can trace their indigestion to acidity. A local druggist is the authority that these tablets are entirely harmless being composed of Soda, Magnesia and Calcium Carbonate U. S. P.

\$17.50 PAINT, BOOKLOVERS' FINE PRIZE

A prize that will be appreciated by many is Ten Gallons of Paint purchased from the Marietta Paint & Color company. This means \$17.50 worth of best grade Aurora house paint—any color desired by the winner of this prize in the Advocate big Booklovers' contest.

The store now fronts on the Arcade and on Church street, and is one of the most experienced and the largest exclusive paint houses in Central Ohio. It handles a general line of paints, brushes, oil, varnish, stain and fillers—everything that could be possibly required in this

line. It conducts both a wholesale and retail business.

The Marietta Paint & Color Co., has added a large wall paper department which occupies the Arcade end of the store. A very attractive line is carried in papers of every description.

Drop in and let manager Horner show you the line of paints. Just think of the splendid opportunity to get your home newly painted this season, that this Booklovers' Contest gives you.

While the last picture has been published the time has been extended and there is still an opportunity for you to win one of these splendid prizes. Get the coupons and catalogue now and send in your answers along with the others.

Every Home Needs This Great Remedy

No Home Can Afford to Be Without a Mild, Reliable Laxative-Tonic.

No well-regulated home should be without a laxative, for there is scarcely a day in a family of several persons that someone doesn't complain of a headache of sleeplessness, or show the first signs of a cold.

A laxative then becomes a necessity or what was a trifling congestion at the beginning may run into a serious cold or fever. No harsh remedy is needed, but simply a mild laxative- tonic that will make the liver active and stir up the bowels. People who have tried a great many things, who are themselves heads of families, who have seen the little pills run to big ones will tell you that there is nothing better than Dr. Caldwell's Syrup Pepsin, which you can obtain at any drug store for fifty cents or one dollar a bottle, the latter being the family size.

Among the great believers in Syrup Pepsin for constipation in old or young, and as a general household emergency remedy, is Mrs. M. F. Smith, 710 N. Cherry St., San Antonio, Tex. To use her own words, she says she will bless Dr. Caldwell to her dying day for he believes that through his remedy, Syrup Pepsin, she found the way to permanent good health.

Dr. Caldwell's Syrup Pepsin is scientifically compounded and its purity is vouched for. Mothers give it to

MRS. M. F. SMITH

tiny babies, and grown people, taking a little larger amount, find it equally effective. It is mild and gentle, pleasant-tasting and free from griping.

It does not hide behind a high sounding name and is absolutely free from any prohibited ingredient. Families who once use Syrup Pepsin for ever after avoid cathartics, salts, pills and other harsh medicines, for these only do temporary good, are nauseous and a shock to any delicate system. Such things should never be given to children.

Families wishing to try a free sample bottle can obtain it postpaid by addressing Dr. W. B. Caldwell, 419 Washington St., Monticello, Ill. A postal card with your name and address on it will do.

ELKS' CIRCUS WILL HAVE A BIG PARADE

Tomorrow comes the Elks' big circus, the Spellman shows, with their galaxy of splendid acts and skilled performers, to exhibit here Wednesday and Thursday, and it is assured that a real treat.

The attraction consists of high class acts. They include trained animals, many acrobats, contortionists, an unusually large number of clowns, magnificent horses upon which difficult feats are performed by dainty and skillful equestriennes, aerialists, and a host of other interesting stunts. Perhaps the feature of the entire circus is Spellman's royal troupe of performing bears, an act that typifies the remarkable extent to which an ordinarily unintelligent dumb brute may be trained and educated. The great animals display at times intelligence that is almost human, performing many difficult tricks with apparent ease. This act is humorous as well as educational, the antics of two small cubs affording the audience much merriment.

The great Stregest-Silbon aerialists are billed as the foremost attraction of the circus, and for those in search of sensations the act is one that should not be missed.

The acrobatic turns are featured by the work of Miss Ella Schiavoni, of the Schiavoni Acrobats, whose feats of strength are truly wonderful. In connection with Hill's troupe of performing ponies, "Prize in the smallest of trained equines," is introduced. Prizes is supposed to be a pony, and is about two feet high.

The performance is given under the personal direction of Mr. Spellman. The circus will be here for two days, two performances being given daily, at 2 and 8 p. m.

There will be a street parade each day between 10 and 11 o'clock.

THIS WOMAN'S SICKNESS

Quickly Yielded To Lydia E. Pinkham's Vegetable Compound.

Baltimore, Md.—"I am more than glad to tell what Lydia E. Pinkham's Vegetable Compound did for me! I suffered dreadful pains and was very irregular. I became alarmed and sent for Lydia E. Pinkham's Vegetable Compound. I took it regularly until I was without a cramp or pain and felt like another person, and it has now been six months since I took any medicine at all. I hope my little note will assist you in helping other women. I now feel perfectly well and in the best of health."—Mrs. AUGUST W. KONDNER, 1622 Hollins Street, Baltimore, Md.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and to-day holds the record of being the most successful remedy for female ills we know of, and thousands of voluntary testimonials on file in the Pinkham laboratory at Lynn, Mass., seem to prove this fact.

For thirty years it has been the standard remedy for female ills, and has restored the health of thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, tumors, irregularities, etc.

If you want special advice write to Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

JUNIOR PLAY AT HIGH SCHOOL FRIDAY EVENING

In practically every English speaking country in the world "The School Mistress" is to be presented by the junior class of the high school next Friday night in the high school auditorium. It has been a very large success. Several years ago it was given by the Strollers of Ohio State University, and this year it is to be presented by the senior class of Harvard University. From the time that it was first staged in England in 1886 it has been very popular and is one of the most popular plays that Pinere ever wrote.

The scene of the play is laid in a fashionable girls' boarding school in England, and all of the episodes and amusing happenings of school life furnish situations that will captivate the audience. This play is brimming with the rollicking fun that can only be depicted in a play that represents school life. From the time that the curtain rises the audience is guessing whether the scene is a boarding school or a matrimonial bureau.

All of the cast are exceptionally well-fitted to their parts, and have been rehearsing diligently for the past several months under the supervision of Mr. Chalmers M. Parker of the faculty.

The plot centers about the school mistress, Miss Dyott. This role is portrayed in very pleasing style by the charming Miss Helen Langlin. Miss Langlin, in the play, while posing as a very sedate and stately spinster who conducts a boarding school, is in fact recently married, and supports her husband, who resides in the house as guest, with proceeds of the school. Her husband being a professional English gentleman of sophisticated character, can not subsist on paltry proceeds of the boarding school, therefore the school mistress engages to appear in musical comedy to obtain funds to supply her spendthrift husband. The roll of the schoolmistress' husband, Hon. Vere Queckett, is portrayed by Dale Warner, who readily adapts himself to the role of the typical English fop who has squandered his portion of the family fortune and seeks to rehabilitate his pocketbook by marrying a wife who will support him.

Among the rest of the cast are Joseph Hawkins, Inez Korb, Leiland Stevenson, Adria Harrison, Goddard Chase, Kathryn Davis, Bernice Catt, George Preffer and Herschel Stephan.

SUMMER SCHOOL WILL BE HELD AT GRANVILLE

(Special to the Advocate.)

Granville, May 5.—Contrary to custom of the past two years the Denison Summer School will be held in Granville this coming summer. It was thought that the access to the college buildings would be a great aid to the instructors and the students as well. For the benefit of teachers a special course has been arranged which will be given under the supervision of Dr. A. W. Webber of the Cleveland Normal Training Schools.

All members of the regular faculty of Denison will instruct students in their respective courses during the summer. To increase the efficiency of the regular staff of professors several experienced teachers have been secured to assume charge of the special work which will be offered by the summer school.

Assurance has been given by the State Department of Education that full credit will be awarded to prospective teachers who have received instruction in the new course. This will fulfill the desires of many who intend to teach as they will be able to meet the requirements of the new school law recently passed in the Ohio legislature.

The law states, "After January 1, 1915 all teachers must have had at least six months of actual experience to be eligible for the work in the high and grade schools." In addition to this demand it is further required "Six weeks will be added the prescribed amount of necessary experience each year until by 1920 all high and grade school instructors will be required to have a full year of practical training."

Work given in this department will be offered by persons of considerable experience. Dr. A. W. Webber of the Cleveland Normal School is possibly the most widely known instructor of Normal training courses in Ohio. He will be supplemented by Miss Mary Roberts of the Columbus Normal Training School and Miss Alice Calhoun former head of the primary department of the Laurel School of Cleveland.

Under the able instruction of the corps, elementary courses will be offered in geography, agriculture, public school music and many other academic and college subjects. Ample opportunity will be given to those desiring to take a general review of the common branches of school work.

For the first time Denison will have an authorized summer school. Heretofore Denison has held summer school but the idea was conducted under the personal supervision of a number of faculty members. At present the indications are that there will be a larger attendance than there has been at any previous session. The summer course will open June 22 and close July 31.

STATE SENDS INSTRUCTIONS TO THE CITY SEALER

Instructions to county and city sealers of weights and measures of the state dairy and food department, order close scrutiny of measures in which strawberries and other small fruit is offered for sale.

The department, in instructions sent to City Sealer White, urges that persons offering berries for sale be made to offer them only in baskets of a full quart or full pint volume, in order that consumers may be protected from containers having false measure.

Further instructions from the state bureau on the matter of fruit and vegetable weight and measure will be forthcoming within a few days, it is said, when all dealers in the state will be specifically informed as to the extent of their authority and urged to enforce the latest enactments along this line.

Thirty Years

About thirty years ago we started to make a pure white laundry soap which we christened "Easy Task," for the reason that it takes out dirt easily and quickly. This was the first white laundry soap made in this country. It is made of the very best materials that enter into soap-making, and today is one of the most popular soaps on the market.

EASY TASK SOAP

lightens labor and makes laundry work a pleasure. Its quality is unsurpassed and it costs the same as many of the inferior soaps. A soap which has stood the test of thirty years must undoubtedly possess merit.

Easy Task Soap is sold at all grocers. Price five cents per cake.

HOW RESINOL CLEARS AWAY UGLY PIMPLES

It is so easy to get rid of pimples and blackheads with Resinol, and it costs so little, too, that anyone whose face is disfigured by these pests is foolish to keep on with useless cosmetics, or to complicated "beauty treatments."

See how simply it is done: Bathe your face for several minutes with Resinol Soap and hot water, then apply a little Resinol Ointment very gently. Let this stay on ten minutes, and wash off with Resinol Soap and more hot water, finishing with a dash of cold water to close the pores. Do this once or twice a day, and you will be astonished to find how quickly the healing, antiseptic Resinol medication soothes and cleanses the pores, leaving the complexion clear and velvety. Resinol stops itching instantly and speedily heals skin humors. Resinol Ointment and Soap sold by all druggists. For free trial size, write Dept. K.K. Resinol, Baltimore, Md.

those present. Some other subjects
were also discussed.

Enjoyed the Contest.

A man living in an adjoining
county who requests that his name
be withheld, writes to the Advocate
saying in part: "I am a hopeless,
helpless cripple and the Advocate
Booklovers' contest has served to
help me to pass away some of the
many weary hours that I have. I
am sorry to see the contest ap-
proaching its end. I shall need some
extra coupons but can't tell just yet
what ones. I wish you success."

Free Contest Coupons And Catalogues

This offer is good to and including May 9th only.

Special offer to old and new subscribers gives opportunity to enter \$4,000 Booklovers' contest now without extra cost. Time extended to May 18 for purchase of coupons will enable anyone to start now and win. Solutions may be submitted from May 19 to 30. Read this special offer which will interest you if you are now in the contest and will interest those who have not yet started to solve the pictures.

The seventieth or last picture in the Advocate's \$4,000 Booklovers' contest was printed last Friday but for many people that date marks the beginning instead of the end of the big contest.

The demand for complete sets of the picture coupons and catalogues Saturday and today shows that many people have been waiting for publication of the last picture before starting to work for the prizes.

The sale of coupons and catalogues will continue until 6 o'clock p. m., Monday May 18th. Letters postmarked not later than May 18 containing orders for coupons will be filled if accompanied by remittance.

Beginning May 19 and continuing up to May 30 contestants may submit their solutions. No solution will be accepted after 8 p. m. Saturday May 30, but all solutions bearing out of town postmarks of May 30 or earlier date will be accepted.

Beginning June 1st, the correct answers to the pictures will appear in this newspaper and as soon as it is possible to do so the names of the winners will be announced and the 136 prizes will be awarded.

Thus it will be seen that contestants and those who are yet to enter the contest will have until May 18 in which to obtain coupons, and then all have twelve more days in which to fill out the coupons and submit their answers.

Here is a special offer to both old and new subscribers: With a six months paid in advance subscription by carrier delivery (\$2.25) we will give a complete set of coupons and a catalogue worth \$1.65, and with a year's mail subscription (\$2.50) we will give a complete set of coupons and a catalogue. This offer is made to both old and new subscribers, but in case of old subscribers, full payment of subscription to date must be made as well as advance payment as stated. This offer will enable those who are now in the contest to obtain an extra set of coupons without cost and will enable one who is not now in the contest to get in without a cent of expense so far as the contest is concerned. It is an offer that is made to all residing in the contest territory, and makes it easy for anybody to go into the big contest now and win. This offer is open only to Saturday, May 9. There is plenty of time to enter the contest now if you are prompt. Coupons may be obtained up to May 18. No solutions are to be sent in until the coupon selling stops and all solutions must be sent to the Advocate by May 30.

The contest binders will be ready May 5. Price 15 cents each. By mail 17c.

The time is growing short, but there is plenty of time for you to get in this contest now and win if you get busy now.

If you are served by a carrier boy, pay six months in advance and get a full set of coupons and a catalogue free. If you are served by mail, pay a year in advance and get a full set of coupons and a catalogue free. The Advocate will appreciate it if you will show this offer to your friends who may not be in the contest at the present time. This special offer is positively not good after May 9.
